

SCHEDULE A – ATTACHMENT 1 – BUSINESS SPECIFICATION WORKSHEET

VENDOR QUESTIONS WORKSHEET

Provide a detailed response to each question. “You” and “company” refers to the bidder.

Information Sought **Information Sought Legal business name and address of parent company, if any.** ** Has there been a recent change in organizational structure (e.g., management team) or control (e.g., merger or acquisition) of your company? If the answer is yes: (a) explain why the change occurred and (b) how this change has affected your company. ** **Discuss your company’s history. Has growth been organic, through mergers and acquisitions, or both? Information Sought Has bidder ever been debarred, suspended, or disqualified from bidding or contracting with any entity, including the State of Michigan? If yes, provide the date, the entity, and details about the situation. Has your company been a party to litigation against the State of Michigan? If the answer is yes, then state the date of initial filing, case name and court number, and jurisdiction. Information Sought Within the last 5 years, has your company or any of its related business entities defaulted on a contract or had a contract terminated for cause? If yes, provide the date, contracting entity, type of contract, and details about the termination or default. State your gross annual sales for each of the last 5 years. If receiving a contract under this Solicitation will increase your gross revenue by more than 25% from last year’s sales, explain how the company will scale-up to manage this increase.** ** Information Sought State the physical address of the place of business that would have primary responsibility for this account if bidder is awarded a contract under this Solicitation. Bidder affirms that any business types identified on its SIGMA VSS profile, including those eligible for Geographically Disadvantaged Business Enterprise (GDBE) and Michigan Supplier Community Program (MiSC), are valid. ** **Information Sought 3. Qualified Disabled Veteran/Service-Disabled Veteran-Owned Business Program Under MCL 18.1261, a “qualified disabled veteran” means a business entity that is 51% or more owned by 1 or more veterans with a service-connected disability. A “service- connected disability” means a disability incurred or aggravated in the line of duty in the active military, naval, or air service as described in 38 USC 101(16). Are you a qualified disabled veteran? To demonstrate qualification as a qualified disabled veteran, you must provide: (a) Proof of service and conditions of discharge (DD214 or equivalent); (b) Proof of service-connected disability (DD214 if the disability was documented at discharge or Veterans Administration Rating Decision Letter or equivalent if the disability was documented after discharge); and (c) Legal documents setting forth the ownership of the business entity. In lieu of the documentation identified above, you may provide proof of certification by the National Veterans Business Development Council. Did your company, an employee, agent, or representative of your company, or any affiliated entity participate in developing any component of this solicitation? For purposes of this question, business concerns, organizations, or individuals are affiliates of each other if, directly or indirectly: (1) either one controls or has power to control the other or (2) a third-party controls or has the power to control both. Indicia of control include, but are not limited to, interlocking management or ownership, identity of interests among family Information Sought If you are awarded a contract under this solicitation, in order to provide the goods or services required under a resulting contract, do you intend to partner or subcontract with a person or**

entity that assisted in the development of this solicitation? Will your company, or an employee, agent, or representative of your company, participate in the evaluation of the proposals received in response to this Solicitation? Information Sought Information Sought onboarding, support improvement. Together, these three demonstrate EarnSt design, deliver, and critical, multi-entity statewide reach—full scope, complexity, expectations of this **Experience 1 Company name. Contact name. 1. Project name and description of the scope of the project.
2. What role did your company play? ** **Experience 3 — Tetra Delivery Partners Information Sought**
3. How is this project experience relevant to the subject of this Solicitation? Total dollar value of project Initial budget proposed with bid Final budget upon implementation Start and end date (mm/yy – mm/yy) Initial project implementation timeline with bid Final project implementation timeline Status (completed, live, other – specify phase) Results obtained.
6. Standard Contract Terms Bidder must affirm agreement with the attached Contract Terms. If not in agreement, written exceptions in accordance with the Evaluation Process section of the Proposal Information Sought Instructions must be provided with Bidder's proposal. Any acceptance to the Contract terms confirms your organization's agreement, if awarded a Contract, and thus cannot be further edited or negotiated. Having any further exceptions to the Contract terms, at time of Contract negotiations, may be cause for disqualification. Bidder must include all persons who reviewed or edited the Contract terms, and their applicable role and title within your organization. Bidder must affirm agreement with the attached Schedule C (Insurance Requirements). If not in agreement, written exceptions in accordance with the Evaluation Process section of the Proposal Instructions must be provided with the Bidder's proposal.
8. Michigan Economic Impact Information Sought
9. Labor, Antidiscrimination and Environmental Laws Compliance Bidder must disclose any violations of state or federal labor, antidiscrimination and employment laws and regulations received within the past five years. Bidder must disclose any violations of state or federal environmental laws and regulations received within the past five years. Classification of Employees. I certify that the company has properly classified its employees in accordance with federal/state labor and employment laws. Abusive Labor Practices. The Contractor certifies that it will not furnish any Deliverable that was produced fully or partially by forced labor, forced or indentured child labor, or indentured servitude. Certification of Michigan Business- Public Act 431 of 1984, Sec. 268. I certify that the company has, pursuant to the provisions of Sec 268 of Public Act 431 of 1984, filed a Michigan Business Tax Corporate Income Tax Return. I certify that the company has, pursuant to the provisions of Sec 268 of Public Act 431 of 1984, filed a Michigan Income Tax return showing income generated in, or attributed to the State of Michigan. I certify that the company has, Information Sought pursuant to the provisions of Sec 268 of Public Act 431 of 1984, withheld Michigan Income Tax from compensation paid to the company's owners and remitted the tax to the Michigan Department of Treasury. ** **Iran Linked Business- Public**

Act 517 of 2012. I certify that the Company is not an Iran-Linked business as defined by Public Act 517 of 2012. Clean Corporate Citizen. I certify that the Company is a Clean Corporate Citizen as defined by the Environmental Protection Act, 1994 PA 451. Convict Labor. The Contractor certifies that if using convict labor, it is complying with all applicable state and federal laws and policies. SOM Debt/Tax Payment. All SOM tax/debts. I certify that all applicable State of Michigan taxes are paid, and that no outstanding debt is owed to the State of Michigan. Authorization to Verify Information Provided by Vendor. I authorize the State to verify that all information provided in this registration, in bidding and contracting documents, and any attachments or supplement documents and processes are accurate. Is bidder planning to utilize construction mechanics as defined by Public Act 10 of 2023 If you answered yes to the above question, Bidder certifies that they are registered with the Department of Labor and Economic Opportunity. ** Bidder agrees to respond, by established deadlines, to all requests from the State including but not limited to, clarification requests, notices of deficiency, and proposed changes to Contract Terms. **

1. DEFINITIONS

The following terms have the meanings set forth below. All initial capitalized terms that are not defined in this Schedule shall have the respective meanings given to them in Section 1 of the Contract Terms and Conditions.

|Term|Definition| |LEO|Labor & Economic Opportunity| |DTMB|Department of Technology, Management, and Budget| |YEPP|Youth Employment Permit Portal| |YESA|Youth Employment Standards Act| |WHD|Wage and Hour Division| |CEPAS|Centralized Electronic Payment Authorization System| |ATO|Authority To Operate| |SSP|Systems Security Plan|

2. BACKGROUND

The Youth Employment Standards Act (Public Act 90 of 1978) requires the Wage and Hour Division (WHD) to establish a statewide, no-cost work permit system for youth employment. This responsibility includes transitioning the permit processing duties from local school districts to the Department by replacing the current paper-based method with a centralized electronic system. WHD must ensure that the new system is accessible to minors, employers, and guardians and supports compliance with youth employment laws across Michigan. This transition is essential to improve efficiency, standardize enforcement, and uphold legal protections for working minors.

87

3. PURPOSE/CHALLENGE STATEMENT

The State is seeking *either a Contractor Hosted or State Hosted* COTS or SaaS Software Solution and applicable Services.

Term of the Agreement: 5 Base Years with 5, 1-Year Options. **4. IT ENVIRONMENT RESPONSIBILITIES**

Bidder must disclose if it is proposing a Contractor Hosted or State Hosted application. **Development-Pro Component Matrix** Facilities Infrastructure Platform Application Storage **Application**– Soft services. **Development-Pro Component Matrix** Application Development

5. ADA COMPLIANCE

The State is required to comply with the Americans with Disabilities Act of 1990 (ADA) and has adopted standards and procedures regarding accessibility requirements for websites and software applications. All websites, applications, software, and associated content and documentation provided by the Contractor as part of the Solution must comply with the Digital Accessibility Standards.

Contractor must provide a description of conformance with World Wide Web Consortium (W3C) Web Content Accessibility Guidelines (WCAG) 2.1 Level AA specifications by providing a completed PAT for the Solution. If the Solution is comprised of multiple products, a

2025-6

101

PAT must be provided for each product. In addition to PATs, Contractors may include a verification of conformance certified by an industry-recognized third-party. If the Contractor is including any third-party products in the Solution, Contractor must obtain and provide the thirdparty PATs as well.

Each PAT must state how the product meets the specifications. All “Not Applicable” (N/A) responses must be fully explained. Contractor must address each standard individually and with specificity; and clarify whether conformance is achieved throughout the entire product (for example – user functionality, administrator functionality, and reporting), or only in limited areas. A description of the evaluation methods used to support WCAG 2.1 Level AA conformance claims, including, if applicable, any third-party testing, must be provided. For each product that does not fully conform to WCAG 2.1 Level AA, Contractor must provide detailed information regarding the plan to achieve conformance, including timelines.

5a. Bidder must provide details of how they will meet these requirements.

6. USER TYPE AND CAPACITY

Contractor Solution must meet the expected number of concurrent Users below:

Type of User	Access Type	Number of Users	Number of Concurrent Users	Public Citizen	Read/Write
500,000	500-1500	State Employee	Admin	30	30
Approved Third Party	Read/Write	200,000	500-1500		

- *Approved Third Party:
- The Employers
- School Administrative Staff

2025-6

103

Bidder must explain how it will be able to support the expected number of concurrent Users. Bidder must also explain whether the Solution can scale up or down without affecting performance.

7. ACCESS CONTROL AND AUTHENTICATION

The Contractor's solution must implement identity federation with the State's MiLogin IT Identity and Access Management (IAM) environment as described in the State of Michigan Administrative Guide (1340.00.020.08 Enterprise Identity and Access Management Services [Standard \(michigan.gov\)](#) .

To support federation with the SOM MiLogin solution, the Contractor's solution must support SAML, OpenID Connect (ODIC) federated identity protocols.

Solutions running within the States internally managed IT environment may be suitable for integration with the State's Active Directory services as identified in the 1340.00.020.08 [standard](#).

Bidder must explain how they will meet the requirements for Access Control and Authentication.

8. REQUIRED FUNCTIONALITY RELATING TO DATA RETENTION, DISPOSAL, AND RETRIEVAL

The State has legal obligations to retain, dispose, and retrieve State Data along with obligations to manage and secure State Data. To meet these obligations, the Solution must allow the State to:

- 1) retain all data for the entire length of the Contract.
- 2) delete its data or request the deletion of its data, even data that may be stored offline or in backups.
- 3) transfer its data back to the State or to a new vendor or new solution.
- 4) transfer its data to the Archives of Michigan as may be required by a retention and disposal schedule.
- 5) retrieve data, even data that may be stored offline or in backups.

Except as otherwise stated in the Contract, Contractor will not dispose of, delete, or destroy State Data without the prior written approval of the State.

Bidder must review and explain how the data retention, disposal, and retrieval requirements will be met by the solution and describe its data management capabilities (storage limitations, duration, etc.). If the Solution does not allow the State to perform these activities itself, the bidder must explain how it will support the State's compliance with these requirements.

9. END USER AND IT OPERATING ENVIRONMENT

The SOM IT environment includes FedRAMP authorized major cloud providers and on-premises market leading virtualization environments, with supporting platforms that includes enterprise storage, monitoring, and management running in house and in cloud hosting provides. Contractor must accommodate the latest browser versions (including mobile browsers) as well as some pre-existing browsers. To ensure that users are able to access online services, Contractor must ensure applications and websites display and function accurately in, at minimum, the two most recent major versions of the following browsers or successor browser, without reliance on special plugins or extensions:

- Google Chrome
- Microsoft Edge
- Firefox

- Safari
- Any future browsers that obtain over 5% of market share as measured by industry sites such as statcounter.com or W3counter.com

Contractor must support the current and future State standard environment at no additional cost to the State.

Bidder must describe the optimal IT environment, including any applicable hosting environments, supported browsers and user interfaces.

10. SOFTWARE

Software requirements are identified in **Schedule A – Table 1 Business Specification Worksheet**. Contractor must provide a Software Bill of Materials (SBOM) containing details and supply chain relationships of various components used in the Solution. The SBOM will contain all open source and third-party components, libraries, and dependencies included with or used in connection with the Solution. This information must be provided to the State in a mutually agreed format on a quarterly basis and for new components at least 30 days prior to being added to the Solution.

Look and Feel Standards

All software items provided by the Contractor must adhere to the State of Michigan Application/Site standards which can be found at <https://www.michigan.gov/standards>. **Mobile Responsiveness**

2025-6

113

If the software will be used on a mobile device as define in Schedule A – Table 1, Business Specification Worksheet, the Software must utilize responsive design practices to ensure the application is accessible via a mobile device.

SOM IT Environment Access

Contractor will not access State environments or State Systems from locations outside the United States or the jurisdiction territories of the United States. Contractor must access State environments using one or more of the following methods:

- State provided VDI (Virtual Desktop Infrastructure) where compliant.
- State provided and managed workstation device.
- Contractor owned and managed workstation maintained to all State policies and standards.
- Contractor required interface with State Systems which must be maintained in compliance with State policies and standards as set forth in **Schedule E – Data Security Requirements** .

Bidder must provide a detailed description of the Solution to be provided under the resulting Contract including, but not limited to, a detailed description of the proposed Software (name, type, version, release number, licensing structure [Perpetual vs Subscription], etc.), its functionality including the information architecture and functional design of the system, such as functionality maps, architectural maps, training materials, visual aids including screen shots, actions performed by the system, and any behind the scenes processing, optional add-on modules and plugins. The level of detail provided will be such so that anyone is able to read it and understand how the software works. Additionally, clearly

define the Bidder's services and the Solution's ability to be rapidly configured or scaled as the State's business or technical demands change. the Contractor-Hosted environment, with the exception of standard browser access and any State-provided identity or integration endpoints. Bidder must describe any State system access requirements that are necessary for the Bidder to perform its obligations on a timely basis, including but not limited to, physical or remote access to State networks, servers, or individual workstations.

2025-6

145

governed, and replaceable at the State's direction to ensure adaptability and long-term compliance. The following components operate exclusively within controlled, purpose-specific workflows: • IDENFY – Government ID / Identity Verification Provides automated identity and document verification (e.g., driver's licenses, state IDs, passports) using secure, FedRAMP-aligned processing. Only the specific government-issued ID submitted for verification is transmitted. IDENFY does not access broader State data, application records, or system metadata. • Business Verification Provider (e.g., Enigma) Supports employer/KYB verification using business entity attributes. Only data required for business authenticity validation is transmitted. • Google Maps Platform (Places & Geocoding APIs) Enables employer search, proximity mapping, and address resolution. No confidential or sensitive State data is sent to Google. • SendGrid Provides secure, event-driven transactional email delivery (status updates, reminders, and confirmations). Only email addresses and notification metadata are used. • Twilio Delivers SMS notifications for time-sensitive updates. Only mobile numbers and message metadata are processed.

2025-6

146

2025-6

147

Bidder must identify and describe the use of artificial intelligence (AI) within or used to develop the Solution.

2025-6

148

All primary user workflows are supported on mobile devices, including: • Initiating and completing permit applications • Reviewing and approving caregiver/employer steps • Uploading documents from a mobile device (subject to device and browser capabilities) • Searching for employers • Viewing statuses, alerts, and messages • Accessing digital proof of permit • Submitting updates or corrections Administrative pages and reporting tools are accessible on mobile, although they are optimized for desktop use for best readability and productivity. 11. INTEGRATION Contractor must integrate their solution to the following technologies: Current Technology MiLogin Volume of Data Unknown at this moment. Format of the input & export files SAML, OPENAUTH, OIDC 11a. Bidder must review and explain how the Solution will integrate to this system.

12. MIGRATION - RESERVED

13. HARDWARE - RESERVED

14. TRAINING SERVICES

The Contractor must provide administration and end-user training for implementation, go-live support, and operational handoff.

What type of training will be needed? How will the Training be delivered, by type of training? How many individuals will need to be trained? [The Bidder must provide available training options and include details such as: materials, on-site or web based. The Bidder must provide a training plan for go-live support and transition to self-support, including options and details such as the number of dedicated personnel, staff location, hours available and duration of go-live support.]

The Bidder must provide available training options and include details such as: materials to be provided, class duration, on-site or web based. The Bidder must provide a training plan for go-live support and transition to self-support, including options and details such as the number of dedicated personnel, staff location, hours available and duration of go-live support.

16. DOCUMENTATION

Contractor must provide all user manuals, operating manuals, technical manuals and any other instructions, specifications, documents or materials, in any form or media, that describe the functionality, installation, testing, operation, use, maintenance, support, technical or other components, features or requirements of the Software.

Contractor must develop and submit for State approval complete, accurate, and timely Solution documentation to support all users, and will update any discrepancies, or errors through the life of the contract.

The Contractor's user documentation must provide detailed information about all software features and functionality, enabling the State to resolve common questions and issues prior to initiating formal support requests.

Bidder must provide details on, and examples of, documentation to meet the requirements set forth in this section.

17. ADDITIONAL PRODUCTS AND SERVICES

Bidder must describe additional Solution functionality, products or services that the State specifications do not address but are necessary to implement and support this solution.

18. CONTRACTOR PERSONNEL

Contractor Contract Administrator . Contractor resource who is responsible to (a) administer the terms of this Contract, and (b) approve and execute any Change Notices under this Contract.

19. CONTRACTOR KEY PERSONNEL

Contractor Security Officer . Contractor resource who is responsible to respond to State inquiries regarding the security of the Contractor's Solution. This person must have sufficient knowledge of the security of the Contractor Solution and the authority to act on behalf of Contractor in matters pertaining thereto. Contractor must inform the State of any change to this resource.

Contractor Name : Antione Bennett Address : 30044 Fink Avenue, Farmington Hills, Michigan 48336
Phone : 248-996-2359 Email : antoineb@tetraflow.tech

Contractor Technical Lead . Contractor resource who will work with the software development team in meeting the provided requirements, overseeing technical aspects of the project, and leading teams to successful outcomes. They are responsible for the technical direction of the project, ensuring product quality, and timely delivery.

Contractor Name : Antione Bennett Address : 30044 Fink Avenue, Farmington Hills, Michigan 48336
Phone : 248-996-2359 Email : antoineb@tetraflow.tech

Contractor Project Manager. Contractor resource who is responsible to serve as the primary contact with regard to services who will have the authority to act on behalf of the Contractor in matters pertaining to the implementation services, matters pertaining to the receipt and processing of Support Requests and the Support Services.

Contractor Name : Philip Holmes Address : 51170 Mayfair Terrace, Novi, Michigan 48374

2025-6

172

Phone : 248-755-1611 **Email** : philip@earnstride.com

20. CONTRACTOR PERSONNEL REQUIREMENTS

Background Checks. - RESERVED

Contractor must seek approval from the State prior to removing or replacing any Contractor Personnel with access to State Data.

Offshore Resources . Use of Offshore Resources is prohibited per the Schedule E – Data Security Requirements. Contractor must comply with the data security and other requirements in this Contract.

Bidder must confirm that they are not using offshore resources or describe any possible conflicts with this requirement.

21. STATE RESOURCES

The State will provide the following resources as part of the implementation and ongoing support of the Solution.

State Contract Administrator . The State Contract Administrator is the individual appointed by the State to (a) administer the terms of this Contract, and (b) approve and execute any Change Notices under this Contract.

State Contract Administrator Name : To be designated by the State of Michigan **Address** : To be provided upon Contract Award **Phone** : To be provided upon Contract Award **Email** : To be provided upon Contract Award

Program Managers . The DTMB and Agency Program Managers (or designee) will jointly approve all Deliverables and day to day activities.

DTMB Program Manager Name : To be designated by the State of Michigan (DTMB)

2025-6

Address : To be provided upon Contract Award **Phone** : To be provided upon Contract Award **Email** : To be provided upon Contract Award

Agency Program Manager Name : To be designated by the Department of Labor & Economic Opportunity (LEO) **Address** : To be provided upon Contract Award **Phone** : To be provided upon Contract Award **Email** : To be provided upon Contract Award

22. MEETINGS

At start of the engagement, the Contractor Project Manager must facilitate a project kick off meeting with the support from the State's Project Manager and the identified State resources to review the approach to accomplishing the project, schedule tasks and identify related timing, and identify any risks or issues related to the planned approach. From project kick-off until final acceptance and go-live, Contractor Project Manager must facilitate weekly meetings (or more if determined necessary by the parties) to provide updates on implementation progress. Following go-live, Contractor must facilitate monthly meetings (or more or less if determined necessary by the parties) to ensure ongoing support success.

The Contractor must attend the following meetings, at a location and time as identified by the State, at no additional cost to the State:

- Stakeholder Monthly Meetings

Bidder must describe how they will meet the meeting requirements set forth above and note any exceptions for successful implementation and ongoing support of the Solution.

23. PROJECT CONTROL & REPORTS

Once the Project Kick-Off meeting has occurred, the Contractor Project Manager will monitor project implementation progress and report on a weekly basis to the State's Project Manager the following:

- Progress to complete milestones, comparing forecasted completion dates to planned and actual completion dates
- Accomplishments during the reporting period, what was worked on and what was completed during the current reporting period
- Indicate the number of hours expended during the past week, and the cumulative total to date for the project. Also, state whether the remaining hours are sufficient to complete the project
- Tasks planned for the next reporting period
- Identify any existing issues which are impacting the project and the steps being taken to address those issues
- Identify any new risks and describe progress in mitigating high impact/high probability risks previously identified
- Indicate the amount of funds expended during the current reporting period, and the cumulative total to date for the project.

All Contractors must submit and enter weekly timesheets into the State of Michigan's Project Portfolio Management tool, Clarity PPM, for approval and reporting. The weekly Clarity PPM timesheet will

contain hours worked for assigned project tasks.

Bidder must describe specific reports the Contractor will provide after contract execution and during the lifecycle of the contract, including all required scheduled reporting and details around the how and when metrics are captured/validated.

24. PROJECT MANAGEMENT

The Contractor Project Manager will be responsible for maintaining a project schedule (or approved alternative) identifying tasks, durations, forecasted dates and resources – both Contractor and State - required to meet the timeframes as agreed to by both parties. Changes to scope, schedule or cost must be addressed through a formal change request process with the State and the Contractor to ensure understanding, agreement and approval of authorized parties to the change and clearly identify the impact to the overall project.

SUITE Documentation

In managing its obligation to meet the above milestones and deliverables, the Contractor is required to utilize the applicable State Unified Information Technology Environment (SUITE) methodologies, or an equivalent methodology proposed by the Contractor.

The Bidder is required to review <https://www.michigan.gov/suite> and demonstrate how each PMM/SEM requirement will be met. Bidders wishing to use their own documents must submit an example of the document that will be substituted. If the Bidder deems a document to be non-applicable, please provide reasons for the determination. The State

2025-6

189

reserves the right to give final approval of substituted documents and items marked as non-applicable.

Critical | A milestone is missed by more than 19 calendar days High | A milestone is missed by between 15 and 19 calendar days Medium | A milestone is missed by between 10 and 14 calendar days Low | A milestone is missed by between 5 and 9 calendar days

26. ADDITIONAL INFORMATION

The State reserves the right to purchase any additional services or products from the Contractor during the duration of the Contract.

2025-6

205

SCHEDULE A – ATTACHMENT 1 – BUSINESS SPECIFICATION WORKSHEET

Instructions for Completing the Business Specifications Worksheet

Contractors must respond to each business Specification on how they will meet the requirements in the document provided. Contractor must not alter the document.

The Business Specifications Worksheet contains columns and is defined as follows:

Column A : Business Specification number.

NOTE:

- The “ **Required** ” section of the Business Specifications Worksheet lists items that the State requires to be part of the
- Solution. “Required” items will be evaluated and scored upon per the State evaluation process.
- The “ **Optional** ” section of the Business Specifications Worksheet lists items that are not required at the time of the
- solicitation but may be desired by the State in the future. Such “Optional” items will be evaluated and used in a best value award recommendation.

Column B : Business Specification description.

Column C : Contractor must indicate how it will comply with the business Specification. Contractor must enter “Y” to one of the following:

- **Current Capability** – This capability is available in the proposed Solution with no additional configuration or cost.
- **Requires Configuration** – This capability can be met through Contractor-supported changes to existing settings and
- application options as part of the initial implementation at no additional cost (e.g., setting naming conventions, creating userdefined fields).
- **Customizations to Software Required** – The requirement can be met through Contractor modifying the underlying source
- code, which can be completed as part of the initial implementation.
- **Future Enhancement** – This capability is a planned enhancement to the base software and will be available within the next
- 12 months of contract execution at no additional cost.
- **Not Available** – This capability is not currently available, and a future enhancement is not planned.

NOTE: Configuration is referred to as a change to the Solution that must be completed by the awarded Contractor prior to Go-Live but allows an IT or non-IT end user to maintain or modify thereafter (i.e. no source code or structural data model changes occurring).

206

Customization is referred to a modification to the Solution's underlying source code, which can be completed as part of the initial implementation. All configuration changes or customization modifications made during the term of the awarded contract must be forward-compatible with future releases and be fully supported by the awarded Contractor without additional costs. Contractor shall understand that customizations (i.e. changes made to the underlying source code of the Solution) may not be considered and may impact the evaluation of the Contractor's proposal.

Column D : The Contractor must also fully disclose how they will meet the requirements in their proposal response. This column is for Contractor to describe how they will deliver the business Specification and if the Contractor proposes configurations or customizations, the Contractor must explain the details of the impacted risk that may be caused if configured or customized to meet the business Specification. Description must be no more than 250 words for each business Specification.

[A|B|C|||D| Business Specification Number | Business Specification | Current Capability Requires Configuration | Requires Customization | Future Enhancement Not Available | REQUIRED||||| 1.0 | The solution must allow for multiple roles with varying permissions. These roles include, but are not limited to: - Employees (minors) - Caregivers/Parents - Employers - School Staff - State of Michigan Staff | Y

207

A B C D Business Business Contractor must explain how they will deliver the Specification Specification business Specification. Explain the details of any Number configuration/customization and the impacted risk that may be caused if configured or customized to meet the business specification. • Federal rules enforced as baseline safeguards; State-specific rules enabled through configuration. Compliance Rules Enforced • Age eligibility requirements (federal and State). • Daily and weekly hour limits, including school-day constraints. • Hazardous and prohibited occupation checks. • Caregiver-consent and age-verification dependencies. • Employer job-detail and position validation. • Automated routing for deviations, suspensions, and revocations. Operational Behavior • Built-in error-

prevention blocks invalid or unlawful entries before submission. • Real-time flagging of non-compliant actions. • Workflow progression and permit issuance are halted until all rules are met. Current Capability Requires Configuration Requires Customization Future Enhancement Not Available

A B C D Business Business Contractor must explain how they will deliver the Specification Specification business Specification. Explain the details of any Number configuration/customization and the impacted risk that may be caused if configured or customized to meet the business specification. • Validates formats for dates, phone numbers, ZIP codes, email addresses, numeric ranges, and required fields. • Applies cross-field logic checks such as age-to- date-of-birth alignment, employer identifiers, and school codes. • Prevents submission of incomplete, incorrect, or improperly formatted data. Workflow Integration • All validations execute before data is saved or allowed to progress to the next workflow stage. • Validation messages guide users to correct issues immediately. Operational Assurance • Built-in validation ensures high data integrity, low implementation risk, and forward compatibility with future platform releases. A B C D Business Business Contractor must explain how they will deliver the Specification Specification business Specification. Explain the details of any Number configuration/customization and the impacted risk that may be caused if configured or customized to meet the business specification. • Reports can be exported in PDF and CSV formats as a current capability. • Excel (XLSX) export can be provided and will require customization. • Export options are available across standard dashboards, and ad hoc reports. • File outputs preserve applied filters, sorting, grouping, and date ranges. Operational Behavior • Export permissions follow role-based access controls. •

Generated files are optimized for readability, printing, and downstream analysis. Technical Readiness • PDF and CSV export require no configuration or source-code changes. • Excel export can be added through State-directed customization. A B C D Business Business Contractor must explain how they will deliver the Specification Specification business Specification. Explain the details of any Number configuration/customization and the impacted risk that may be caused if configured or customized to meet the business specification. • Customization would allow DTMB technical administrators to access only those configuration areas that are appropriate for a SaaS environment and approved by both parties. • Elevated access would be restricted to DTMB personnel using role-based permissions defined during implementation. Operational Capability • DTMB administrators may be granted the ability to modify selected integration settings or parameters, depending on the final integration design (Requires Customization). • All administrative actions would be logged with timestamp, user identifier, and event details to support audit requirements. Security and Governance • Any elevated-access model will follow least- privilege principles and State identity-governance policies. A B C D Business Business Contractor must explain how they will deliver the Specification Specification business Specification. Explain the details of any Number configuration/customization and the impacted risk that may be caused if configured or customized to meet the business specification. Document Generation and Capture • The platform produces system-generated documents such as work permits, authorization certificates, deviation decisions, and other workflow-related outputs. • Generated documents are stored automatically when created, without requiring manual upload. • Each document is associated with the relevant permit, employer, minor, or workflow event for accurate recordkeeping. Secure Storage and Accessibility • Documents are stored in secure, encrypted cloud repositories with role-based access controls. • Authorized users can view or download documents consistent with their permissions. Audit and Traceability • Document creation and access

actions are logged to support auditability and State oversight. Current Capability Requires Configuration Requires Customization Future Enhancement Not Available
